Summary

Full Stack Developer with 2 years of hands-on experience in designing and developing scalable web and mobile applications. Skilled in MERN stack, real-time systems, authentication, and cloud deployments. Seeking a role where I can apply my technical skills to build impactful and user-centric solutions.

TECHNICAL SKILLS

Back-End Development

Node.js, Express.js, RESTfull APIs, JWT authentication, Passport.js, Web Socket for real-time features, and strong understanding of Java OOP concepts.

Database Management

MongoDB (with Mongoose), SQL & MySQL, schema design, and data modeling.

Front-End Development

React.js, React Native, Type Script, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Redux, and Context API for state management.

Additional Skills

Git/GitHub, Docker, responsive UI development, and cross-platform application design

PROFESSIONAL EXPERIENCE

Full Stack Developer

01/2024 – Present

Schmid Vision Soft

Bengaluru

- Developed scalable MERN stack applications with responsive user interfaces.
- Designed and implemented secure JWT-based authentication and RESTful API integrations.
- Optimized performance, resolved critical bugs, and collaborated with cross-functional teams to deliver production-ready features

Web Developer Intern

01/2023 – 04/2023

Compsoft Technology

Bengaluru

- Assisted in UI enhancements, bug fixes, and feature development.
- Contributed to testing and code quality improvements

Projects

Real-time Notification App (Mobile & PWA)

Built a cross-platform notification system using React Native and React PWA with Node.js and MongoDB. Integrated FCM and Web Push for platform-specific notifications, secure login, token management, and reusable UI components.

Dashboard for Person Re-Identification (ReID)

Developed a responsive dashboard using MERN stack and Docker for managing and analyzing ReID data. Added real-time updates, advanced search/filtering, and detailed profile views to improve tracking efficiency.

Live Camera Stream Configuration Tool

Created a web dashboard to configure live camera streams using FFmpeg and React. Enabled interactive zone drawing on real-time video frames with a user-friendly interface.

Image Annotation Tool

Built a React-based annotation tool supporting shapes, markers, and text with real-time edits and MongoDB storage for ML dataset preparation.

Corporate Company Website

Designed and developed a fully responsive, SEO-friendly website using React and Node.js with dynamic content features and modern UI/UX.

Education

computer science of engineering Rajarajeswari college of engineering	08/2019 – 05/2023 bangalore
Alvas pu college science	06/2016 – 04/2019 Mangaluru

CERTIFICATION:

- full stack development (Pentagon Space Bangalore).
- React, MongoDB, JavaScript (Udemy).

Declaration

I hereby declare that the details furnished above are true and correct to the best of my knowledge and belief.
